

JUNCTION X KYUTECH 2026

JUNCTION X KYUTECH is a student-driven global tech event — the first local edition in Japan of JUNCTION, the international hackathon born in Finland — held with official support from JUNCTION HQ.

DATE 2026.9.25 (Fri) – 9.27 (Sun)

VENUE GYMLABO (Kyutech Tobata Campus)

CONCEPT 2026

INTERACTIVE WORLD

— Hack the World Interface —

Hack the interfaces between people and systems, and between systems and the real world. Build products that don't end on the screen — products that interact with the world.

TRACKS

Choose one of three themes

TRACK 01

Hack Extreme Environments

Space as Constraint

TRACK 02

Hack Connected Everywhere

TRACK 03

Hack the Physical World

PRIZES

Grand Prize

200,000 JPY + Golden Ticket

SCHEDULE

DAY 1 | FRI 9.25

13:00–13:30

Registration

13:30

Opening Ceremony

14:00–15:00

Team Building

16:00

Hacking Starts

19:00–20:00

Dinner

DAY 2 | SAT 9.26

All day

Hacking

DAY 3 | SUN 9.27

Morning

Final Hacking Session

12:00

Lunch

13:00

Presentations & Demos / Judging

17:00

Award Ceremony

18:00

Networking Party

PARTICIPANTS

Six specialties, one team

These six roles are a guide, not a rule — one person can wear multiple hats.

Frontend Engineer

Role: Design the interface connecting users and the system
Position: The touchpoint that lets users understand and operate the system

Backend Engineer

Role: Design internal processing and coordination between components
Position: The core that connects every element and makes the whole system work

AI Engineer

Role: Design the system's decision-making and judgment logic
Position: Decides how the system behaves based on its inputs

Robotics / Hardware Engineer

Role: Realize actions and effects in the physical world
Position: Turns system output into actual, physical motion

System Designer (Architect)

Role: Design the structure of the system as a whole
Position: Sees the big picture and makes everything work as one integrated system

UX / Experience Designer

Role: Design the end-to-end experience of the system
Position: Elevates the system from "something used" to "a valuable experience"

FAQ

Q Who can join?

University students, developers, designers, and planners interested in global hackathons. Up to 4 members per team; solo applications welcome .

Q Is there a fee?

None — free to join. Meals and snacks provided during the event.

Q Is there a selection process?

Yes. Not first come, first served — chosen based on application answers.

Q Can I apply solo?

Yes! Team-building sessions will be held on the first day of the event.

Q Travel & accommodation?

Self-funded. Rest zone inside the venue. No parking — public transport recommended.

Q Who owns the project IP?

Your team does. JUNCTION X KYUTECH doesn't claim any rights.

Q. What language is used during the event?

English is the official language of the event. Event sessions are in English, while team discussions can be in any language.

HOW TO APPLY

<https://hackjunction.app/hackathons/junctionx-kyutech-2026>

Open the application form (QR code also works) → answer a few questions and submit → wait for the selection results → join team building

Three days connected to the world. We're waiting for what you'll create.
